UVP PRODUCTS (PTY) LTD

General Engineering

We provide all general engineering in metal and alloy fabrication and repairs on all printing machines. Our qualified Engineers undertake on-site repairs and maintenance as well as design and fabrication of products such as strip glueing machines, surface gluing machines and rewind and unwind airshafts, to suit customer requirements.

Workshop machinery and equipment used in fabrication include

- General hand and power tools
- Mig and Tig welding machines
- Band saw and profile cutting
- Horizontal milling machines
- Lathe work in micro precision
- Bending and folding equipment
- Full CNC Milling services with rotary cutting
- Cylindrical grinding
- Full quality measuring facility
- Flat surface grinding
