

Turtle Tales

Our **Turtle Conservation Centre** is turtle-y busy, caring for loggerhead hatchlings and sub-adult green, hawksbill, and loggerhead turtles. Keep reading for some flipper-tastic news!

Before we talk about adoptions: You might remember that **in April we announced our plans to build a brand new Turtle Conservation Centre** in the V&A Waterfront! We'd love your help in designing the experience for future visitors who will learn more about sea turtles, the threats they face, and solutions to these threats. Please take **this short survey** to help the experience design team:

Mandela Day is all about taking steps to ensure that our actions have a positive impact. What better way to do this than to contribute to the survival of an endangered species?

Our **Turtle Conservation Centre** is currently home to over 250 loggerhead turtle hatchlings - each of these little turtles needs your support.

In the hands of our turtle team, dozens of hatchlings that would have perished can have a second chance at life in the ocean. With your generous help, our team successfully rehabilitates and releases these turtle hatchlings, giving this incredible species a brighter future!

Co-adoption is a great option for everyone!

This is an affordable way to make a difference and give one of our little turtles a chance at a brighter future. Your co-adoption covers a week of veterinary care and food and can mean a world of difference for these turtles.

Co-adopters receive a personalised certificate and an invitation to join our turtle community!

Sponsor a turtle's full rehabilitation!

By fully adopting a turtle hatchling, you are supporting a turtle from rescue, through rehabilitation, and all the way to release! Your adoption covers the entire recovery process for these precious patients, and is an invaluable contribution to this endangered species.

Adopters get to name their turtle and receive a beautiful, illustrated chapter of the hatchling story every month. You will also receive pictures of your hatchling and are the first to know when it is released!
